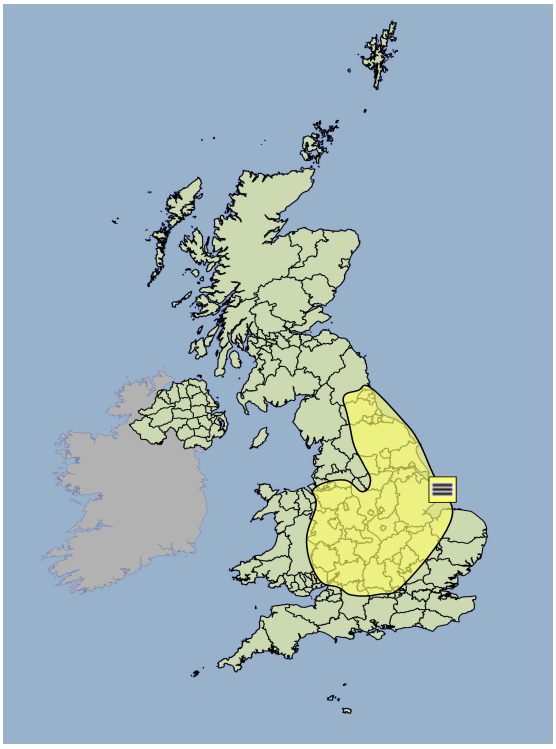
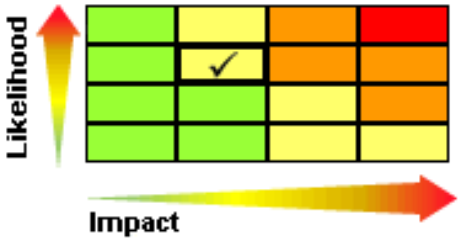
National Severe Weather Warning Service





Chief Forecasters Assessment
Clear skies on Sunday night will allow patchy fog to form. This is unlikely to affect all of the yellow area, and there is some uncertainty over how extensive fog will become. However, where it does form, visibility is likely to fall below 200 metres, leading to some difficult driving conditions.

Fog is also likely to be slow to clear on Monday, and may locally persist all day, before becoming more extensive on Monday evening.

The Met Office have issued a **Yellow Warning** of **Fog**

Valid from **02:00 on Mon, 20th Jan 2014** until **12:00 on Mon, 20th Jan 2014**

Fog patches are expected to form overnight. These could be dense in places and persist well into Monday.

The public should be aware of the potential for difficult driving conditions, especially during Monday morning.
